

360° FINTECH ORCHESTRATION PLATFORM

TH!NK CASHLESS
World's Simple & Trusted Payments

Acquiring & Issuing Orchestration Platform

PayTabs Orchestration Platform offers government and enterprise clients the opportunity to launch their own white-labeled payment services, meeting local data fencing and security requirements.

Full-stack Payment Solution:
Comprehensive online and offline payment suite that's secure, scalable, and stable.

Robust Platform:
Includes a payment gateway, merchant dashboard, Merchant Super App, EFT switch, and API Gateway

Merchant Super App:
Powerful merchant-centric app to simplify payments and manage finances

Custom-fit Solutions:
Customized solutions for leading verticals. Delivered on cloud, on premise and hybrid models at affordable pricing.

Issuance Solution:
Middleware for quick global rollout of prepaid card programs.

Local Compliance:
Data localization per regulator rules as we own the Intellectual property rights for all our products

Rapid Time-to-market:
Fastest Go-To-Market in MENA's payments space. Start card issuing or payment gateway in just 12-5 weeks

Partner Approach:
Positioned as a growth partner, not just a service provider.

Expert Team:
Global experts in cutting-edge payments tech.
